SUMMARY

Motivated engineering student with a strong passion for product management, user research, and customer-centric problem solving. Experienced in writing product requirement documents, mapping user journeys, conducting competitive analysis, and collaborating across teams to deliver impactful features. Eager to contribute as a Product Intern by translating user insights into measurable product improvements and driving meaningful business outcomes.

EDUCATION

Vellore Institute of Technology

B.Tech in Computer Science in Artificial Intelligence and Machine Learning

August 2022-May 2026

C.G.P.A: 8.79

SKILLS

Product Tools: Figma, Notion, Miro, Confluence, Jira

Research Skills: User Interviews, Surveys, Competitive Analysis, Usability Testing, A/B Testing

Analytics: Google Analytics, Mixpanel, Microsoft Excel, Dashboard Reporting

Soft Skills: PRD Writing, Roadmapping, Agile Workflows, Stakeholder Communication, Prioritisation

PROJECTS

SWIFTPAY – DIGITAL WALLET EXPERIENCE REDESIGN | Figma, Notion, Mixpanel 2025

- Conducted 40+ user interviews and surveys to identify key friction points in the payment flow; created detailed user personas, journey maps, and a full Product Requirements Document with prioritised success metrics including daily active users, retention rate, and task completion rate.
- Designed a 20-screen Figma prototype and facilitated two rounds of usability testing with 15 participants, improving task success rate from 58% to 91% and reducing average completion time by 35%.

CAMPUSCONNECT-STUDENT NETWORKING PLATFORM MVP | Notion, Jira, Miro 2025

- Scoped a 3-month MVP roadmap using MoSCoW prioritisation; decomposed goals into 25+ user stories with clear acceptance criteria and maintained a groomed product backlog across 4 sprint cycles.
- Led weekly sprint reviews and tracked feature adoption metrics in a Notion dashboard, enabling on-time delivery and a 30% improvement in simulated stakeholder satisfaction scores.

SHOPWISE – E-COMMERCE CHECKOUT OPTIMISATION | Google Analytics, Figma, Maze 2024

- Benchmarked 5 leading e-commerce platforms and mapped the end-to-end buyer journey, identifying 3 critical drop-off points through funnel analysis and heuristic evaluation with documented findings.
- Validated a redesigned checkout flow via Maze unmoderated tests with 20 participants, achieving a 25-point improvement in the System Usability Scale score and a simulated 14% uplift in conversion rate.

HEALTHTRACK – PREVENTIVE WELLNESS APP CONCEPT | Figma, Notion, Miro 2024

- Analysed 3 competitor wellness apps and synthesised insights from 30 user surveys to define a clear target segment, core value proposition, and differentiated positioning strategy.
- Produced a prioritised feature list, low-fidelity wireframes, and a 6-month product roadmap; presented to a panel of 5 industry mentors who ranked the concept in the top 10% of all cohort submissions.

CERTIFICATIONS

- Product Management Fundamentals (**Coursera – Duke University**) · Google Data Analytics Certificate (**Google**)
- Agile Product Management (**Atlassian**) · UI/UX Design Essentials (**NPTEL**) · Growth Product Management (**Reforge**)

EXTRACURRICULAR & ACHIEVEMENTS

- Co-founded the **Product Builders Club** — organised 6 product teardown sessions and a 24-hour product ideation sprint attracting 100+ student participants from across campus.
- Completed the **NextLeap Product Management Fellowship** (top 5% of applicants); built and presented 3 end-to-end product case studies covering growth, retention, and monetisation strategies.
- Published “**How User Psychology Shapes Great Onboarding Experiences**” on Medium, reaching 1,800+ readers and generating 200+ saves within the first month of publication.
